# Agricultural Possibilities of Alaska

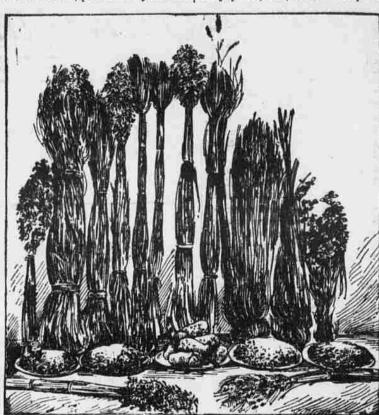

The Department at Washington Believes the Territory May Become Self-Supporting in Food Products.

snow, ice and gold, and while it is not yet practical men of the government agricultural department believe this great territory has agricultural possi-bilities far beyond those that are now

For the past two years government experts have been experimenting and investigating upon the subject of agri-culture in Alaska with a success that is not generally known. The department has now sent men to the territory to continue these investigations and experiments for another season, and in time the territory that has caused such a

BUT few people ever think of flowers particular attention because of Alaska as anything but a great the interest taken in them by the na-Alaska as anything but a great the interest taken in them by the na-barren wilderness filled with tive scholars at the mission school, and she has had the satisfaction of seeing a Garden of Eden, and never will be, 36 different species of flowers in bloom during each of the past three years Among these flowers are many of the same varieties that are common in every garden throughout the states, such as erbenas, chrysanthemums, asters, pinks, pansies, mignonette, sweet peas, poppies, marigold, bachelor's buttons, carnations and a number of other familiar kinds.

The government has collected reports from all sections of Alaska, and in all of them is stated the same agricultural possibilities. In the southern the territory that has caused such a portion of the territory, around Sitka commotion in the world because of its and Skaguay, Wrangell, Cook's Inlet gold, that has lured men from a land and many other portions some wheat, of plenty to a life of privation, and rye, oats and other cereal products have oftentimes starvation during the long been grown with varying success. In winter months, promises to yield suffi- many places, also, some attempt at

Oats, Barley, Flax, Potatoes, Grasses and Clover Grown in Alaska in 1898.

cient food supplies to maintain the hardy men who will make the territory a permanent home.

It certainly seems strange to think to look these goods over. They are of flower and vegetable gardens along the banks of the mighty Yukon; to speak of farms anywhere within the boundaries of this greatest of our territories in point of square mileage at least, and yet both are a fact.

Dr. Sheldon Jackson, who traveled through the valley of the Yukon as a government employe, says of the agricultural conditions existing there:

Dawson (Klondike), a distance of 1,652 miles. I reached Dawson July 25, and after remaining there two days, left for my return trip down the river, reaching St. Michael August 24.

"While Alaska will never be an agricultural state in the same sense in which that term is understood in the Mississippi valley, yet it has agricul-tural capacities much in advance of the public sentiment of the country.

"At Koserefski, 338 miles from the mouth of the river, and at Anvik, 355 miles, I found gardens kept by the Roman Catholic mission at the former place and the Protestant Episcopal mission at the latter place, at which were grown the following vegetables: Potatoes, turnips, cauliflower, radishes, let-Health Club Breakfast Food, flour, bar- tuce, cabbage, carrots, beets and peas. ey and biscuits; the purest and best in I saw potatoes about seven or eight the world, and when you take into ac- inches long and three inches in diamcount the nutriment and healthfulness, eter; turnips weighing ten pounds. In the same region the following berries were growing: Wild whortleberries, salmon berries, bearberries, blueberjuniper berries. A species of red-top Yukon valley, ranging from three to

six feet in height. "At Circle City, 1,322 miles from the mouth of the river, and Fort Cudahy, 1,522 miles from the mouth of the river, on the edge of the Canadian boundary, I found a few good gardens, generally kept by the commercial companies. At Fort Cudahy peas, beans, beets, rad-City lettuce, radishes, onions, turnips Call and see the hundreds of bar- and peas for early use are sowed on the roofs of the houses, the log cabins being covered with dirt roofs, and the warmth of the houses probably convey-ing heat to the soil on the roofs.

"A large vegetable garden has been established on the Canadian side opposite Dawson, the capital of the Klondike mining region."

At these missions which Dr. Sheldon speaks of flowers are raised each tural standpoint than Alaska. In 1891 year. Especially is this true at the there were exported from Iceland 1,310.

Holy Cross mission, where the cultivation of flowers is undertaken by the 716,800 pounds of mutton, 2,500 ponies sisters of the mission. Here Sister M. besides fish, oil, etc., in large amounts.

Winifred has given the cultivation of BERNHARD BRISTOL.

stock raising has been made, and there are now in operation one or two stock farms in the territory which the wners claim are profitable ventures, and from which the settlements near them are supplied with meats.

One of these farms is called the Killisnoo farm, and is situated near Wrangle. It is operated by Thomas Baker, has about 40 acres of ground under cultivation, and has been made fairly prof-itable. The one reason why the profits lack of transportation to better mar-kets, but even without them Mr. Baker "I made a trip up the entire length of the Yukon river, through Alaska, into stock consists of but one team of horses the northwest territory of Canada, to and a number of cattle and hogs. He predicts a boom in Alaskan agriculture

Potatoes from Kadiak, Alaska. when the possibilities of the country

become fully known. Of the possibilities of Alaskan agriculture, Mr. Walter H. Evans, a govern-

ment expert, says: "It is not expected that this country will rival the Mississippi valley in its productions, but it does seem that ag-riculture and horticulture could be extended so as to at least supply the local demands for many products. When the climatic conditions, topography, soils, etc., of Norway, Iceland, Orkney islands, as well as Scotland, Sweden and Finland are compared with those of Alaska, it seems probable that what has been ac- A. brooker, W. M. Dearth, Miss Emma complished in the European regions could also be done in this country. Rye, oats and barley are grown in sufficient abundance in the north of Europe not only to supply the local demands, but there is some for export. Cattle, sheep, and swine are extensively raised, sheep doing well even in Iceland, which appears less auspicious from an agricul-

MARIETTA WEEKLY

DAILY LEADER

DAILY, 6 CTS. PER WEEK WEEKLY, \$1.00 PER YEAR THEREPRESENTATION OF THE PROPERTY AND THE PROPERTY OF THE PROP Sunday School Work in Washington County.

Reports have already appeared in the city papers of the public exercises of the County Sunday School Convention, held on April 18 and 19, but the work done through the year by the Association through its various officers deserves the attention of the good people of Washington county, as one of the most important influences at work in their midst. That this work is growing in appreciation is shown by the members attending the convention, 209 delegates from outside the city being enrolled, which with the city delegates would give an average atendance of nearly 300.

Every township but one was repreented by delegates, Newport, Marietta Warren and Belpre sending the largest number.

The first evening's exercises brought

Jennie McCiuckin, our county Primary Superintendent, attended seven conventions, giving instruction in primary work and addresses on Temperance and Bible Study. Her faithful service has received no renumeration, but has gained the hearty appreciation of both state and county workers.

Miss Nora Thornton attended seven conventions, giving Normal Bible instructions, thus paving the way for five normal classes. To her we give our most sincere thanks.

Statistical reports have been received from 150 Sunday Schools, of which 127 are evergreen. 19 hold teachers' meetings.

Total number of officers and teachers 1.424. Number of scholars, 9,075.

Total membership, 10,499, Average attendance, 5.901. Number added to the church from

the Sunday School, 305

In the interest of the work the Field Secretary has written 396 letters, 167 postal cards; sent out 213 circular letters and programs; attended 22 township conventions; one State and two county; visited 42 Sunday Schools; held 16 special Sunday School rallies; made 212 calls; traveled 815 miles by train; walked 36 miles; rode in all sorts of conveyances 595 miles; by

boat 14 miles; in all 1,626 miles. A large map was displayed at the convention, giving the location of every church and schoolhouse, also showing the places where Sunday Schools are held. This map was drawn by C. W. Dickson, of Ludlow township. A reproduction of this map will be found in the Manual and Directory of the Sunday Schools of Wash have not been larger is on account of a ington county, pamphlet of 25 pages giving full statistics of the Sunday Schools in the county.

The Home Department is instituted lessons at home among those who for any good reason cannot attend the public session of the school. The secretary, Miss Eva Zumbro, reports 14 classes in seven townships with 206 225 Ohio St. Marietta, Ohio scholars, showing a gain over last year of seven classes and 163 members.

The normal work has for its object the training of teachers and the report of the secretary, Mrs. S. C. Blakeslee, shows that many new classes were organized the past year. In 17 townships we have 32 classes with more than bod members.

At this convention we graduated 34, who received the full course State Diploma. Their work was excellent and their examinations merited the high grades they received. The normal work takes well and seems to fill a long felt want.

The following board of officers was elected for the coming year: President, L. E. VanDervoort.

Vice Presidents, the Township Pres idents.

Secretary, P. Z. Mergler. Treasurer, C. F. Strecker. Field Secretary, Miss Flora McLar-

Primary Superintendent, Mrs. S. A. Normal Secretary, Mrs. C. S. Blakesee, Macksburg.

Home Department Secretary, Miss Alzora Palmer, Stanleyville. Executive Committee, Dr. Jas. Mc-Clure, E. L. Pixley, L. V. Martin, Jas.

The next county convention will be held at Watertown some time this fall.

GIVE THE CHILDREN A DRINK called Grain-O. It is a delicious, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee, but is free from all its in-Jurious properties. Grain-O alds digestion and strengthens the nerves. It is not a stimulant, but a health builder, and children, as well as adults can drink it with great benefit. Costs about one-quarter as much as coffee.

WE WANT TO TELL YOU Why Your Back is Lame-Why Aches and Pains, and How to

Cure It. Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it, and does it still keep you from the happiness that perfect health brings to all? We know fall well if such is your condition a cure for it will be a bleasing you no doubt desire. Plasters won't do it, but may assist in bringing strength; liniment wun't do it, for while it may give temporary relief it does not reach the cause. The cause, there's the point, there's where to make the attack. Most backaches come from disordered kidneys; therefore you must correct their netion if you would be cured. People in Marietta are testifying that Doan's Kidney Pills cure "bad backs," and it is not hard to prove their statements. Here is one of them: Do you know what it is to have

The first evening's exercises brought together an audience of 800. Much interest and enthusiasm was manifest through all the sessions of the convention.

We give first a brief resume of the report of the field secretary, Miss Flora Mciaren.

After giving reasons for gratitude to God, for His guidance and blessing in the past year's work, the field secretary gave information on the work carried on in the county from April. '98, to April, '99.

Every township, twenty-two in number, has held a convention, carrying out carefully prepared programs. Mrs.

Lennie McCierkin, our county Primary

Mrs. C. Stafflebean, of No. 630 Third street, says: "Trouble with my kidneys extends back 7 or 8 years, the pain being mostly down in the small of the back, where it hurt to stoop over, or to lift anything. I was always worse when I over-exerted my-self or caught cold. I was feeling quite bad when I got a box of Doan's Kidney Pills at W. H. Styer's drug store on Front street. They did not only relieve and strengthen my back, and remove other symptoms of kidney recould, but they seemed to tone my system up and make me feel physically better and stronger. I felt a good effect from their use in three or four days and had no use for plasters of any kind after taking Doan's Kidney Pills. I have great confidence in them."

Doan's Kidney Pills are sold by all Mrs. C. Stafflebean, of No. 630 Third

Doan's Kidney Pills are sold by all dealers. Price 50 cents per box. Sold by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., Sole agents for the U.S. Remember the Doan's and take no other.

ACTUAL COST LESS THAN \$1,15 PER GAI J. W. DYSLE & CO. 128 Front Street.

WHOOPING

One of the most distressing sights, is to see a child almost choking with the dreadful whooping-cough. Give the child Dr. Bull's Cough Syrup, the greatest pulmonary remedy, and relief will come at once, the coughing spells will re-occur less frequently, and, in a few days, the sufferer will be entirely cured. No other remedy can boast of so many cures.
